In Sydney.

and hence no free horizon peak,
Can straighten a curved horizon line
into a horizontal line
that shall be seen straight.

" Whatever measures

Copy from a letter of Miss
Kibbey to Miss Mearns. 12p3cmc 363

"I must tell you of an
amusing conversation which
took place behind me as I
~~walked~~ ^{rode} on the coast to W'mere.

There were 3 gentlemen &
a lady - educated people &
judged by their speech. We
passed a row of willows &
bush catkins. & —

Lady. What are those?

1st g. I don't know!

2nd g. how do I.

3rd g. Oh! the local name is
~~palms~~, but I don't know
the real name.

Lady. But what do they come
to?

3rd g. Oh — er — my wife has
my green trees you know!

Lady. Then they don't have
any leaves? i2p4cmc363

3.^d P. Yes - I fancy they do!

Lady. The children were saying
the other day that all
these had flowers.

3.^d P. Well - you might think
they would, but of course
they don't.

Lady. Ah! - I forget the
children must have
misunderstood what
they were told.
